

# CHANDLER STREET REDESIGN

The City of  
**WORCESTER**

## PROJECT OVERVIEW

*Creating a safer place to live, visit, and do business.*

The City of Worcester, in partnership with the Massachusetts Department of Transportation (MassDOT), has undertaken a project to study and redesign Chandler Street (Route 122) between Main Street and Park Avenue. Today, Chandler Street sees a combination of high speeds mixed with congested intersections, frequent vehicular crashes, and a lack of modern accommodations for those biking, using micromobility, taking transit, or walking, all of which was underscored by attendees at a public meeting held for this project in Summer 2021. This project aims to make the Chandler Street corridor a safer and more inviting place to live, visit, travel, and do business.

Based on what we have learned from community input and technical analysis, the project team proposes a redesign of Chandler Street that helps lower vehicle speeds, reduce pedestrian crossing distances, and generally improve safety for all users. While a two-way left turning lane will help maintain mobility for private vehicles, delivery trucks, and WRTA buses, repurposing a travel lane and parking spaces allows the introduction of:

- Safety improvements, such as fully protected intersections, shortened crossings, and median refuges for pedestrians
- Dedicated and protected bike and micro-mobility infrastructure
- Improved bus stops equipped with shelters and amenities
- Modern streetscape, including green storm water management, to help create a sense of place on Chandler Street

### GET INVOLVED:

Help shape the future of Chandler Street! Leave a comment for the team on the project website.

### GIVE FEEDBACK:

[ChandlerStreet@WorcesterMA.gov](mailto:ChandlerStreet@WorcesterMA.gov)

### PUBLIC MEETING:

**Thursday, November 16<sup>th</sup>**  
**6:30–8:00 p.m.**

Worcester Common Ground  
King Community Center  
126 Chandler Street, Worcester, MA

At this workshop style event, attendees will have the opportunity to learn more about the design, how it will enhance safety and quality of life for residents and all users of the Chandler Street corridor and be able to provide their input directly to our project team’s designers.
