

RECORDS OF THE WORCESTER CITY CLERK Worcester, Massachusetts, to 1847

On October 26, 2000, the Worcester City Clerk was awarded a Documentary Heritage Grant by the Massachusetts Historical Records Advisory Board in the amount of \$6,754.00.

This grant provided sufficient funding to undertake a thorough inventory of the Town of Worcester records maintained in the City Clerk Department vaults. The archivist for the project has provided a narrative relative to his findings that includes notes on the conditions of the collection and recommendations for future work.

By posting this information in the public arena, we have the opportunity to appreciate the richness of the records recorded by the inhabitants of the Town of Worcester and preserved throughout these hundreds of years.

Extracts from this inventory will be taken for preparing educational materials for students interested in the history of Worcester, and for other collaborations with local institutions and organizations.

If you have an interest in viewing any portion of this inventory, please address your request to me providing the reference from this inventory.

Cordially,
David J. Rushford
Worcester City Clerk

Organized chronologically and by Office of Origin (when known) or by Office of Recipient (if designated) or by content of document.

NOTES: Many of the documents have been copied into the series of ledgers of Town Records. Other records, not considered to be permanent under records retention schedules have not been copied. However all manuscript records of 19th century and earlier should be permanently retained as they are unique primary source documents.

There is wide variation in the content and type of records retained each year by the various Town departments.

The fiscal year ran from April 1 to March 31. However many financial records have been retained by calendar year, rather than fiscal year. The original order of records storage has been retained with overlap of financial records between January and March.

Selectmen's Warrants are for Town Meetings and for Elections. Town Clerk, Coroner, Treasurer, and other offices also issued Warrants for specific purposes.

Until well into the 1800s, the Selectmen also served as Overseers of the Poor. Records of the Overseers are separately filed only for the years in which they were a distinct department.

School records for the early years are part of the Selectmen's records. In some years separate committees were established to oversee schools. A separate School Department did not exist in the early years of Worcester.

Early records relating to pay for clergy, ringing the church bell, care of the meeting house, etc. are with Selectmen's records. Records relating specifically to First Parish, and the establishment of Second Parish, are foldered separately.

William F. Carroll, CA

LEDGERS, 1688-1850:

1. Proprietors Records, 1668-1788.
2. Proprietors Records, 1668-1778. (Manuscript copy.)
