Scheduled Committee Hearing: July 19, 2023 Traffic & Parking Committee, Item 3c

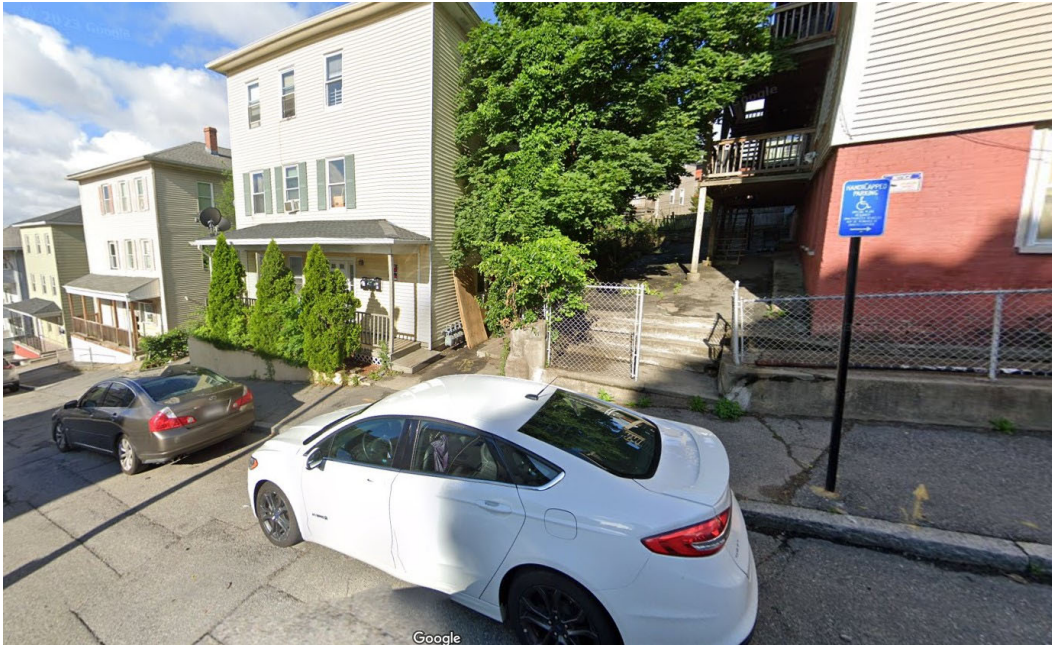

Prepared by: Todd M. Kirrane, Assistant Director

---

Councilor Candy Mero-Carlson has requested, on behalf of Jonisha Deleon, the installation of a designated curbside disabled parking space in front of 29 Shamrock Street.

Although the location is appropriate for the installation, the required state issued disabled plate or placard information was not provided with the petition. Additionally, since it was filed by the Councilor on behalf of her constituent, staff has no contact information for the resident to follow up and request the submittal. Therefore, staff is looking for input from the Committee on whether or not staff should request the information from the Councilor or if they would like staff to send a letter requesting the information directly to the resident.

**Recommendation:** Based on the information provided above, staff is recommending the following action:

- Vote to HOLD the item to the next meeting.
